Observations courtesy of [US Geological Survey](https://www.usgs.gov/) .

NOTE: River forecasts for this location take into account past precipitation and the precipitation amounts expected approximately 48 hours into the future from the forecast issuance time.

NOTE: On October 1, 2023, the USGS changed the datum at this location resulting in a permanent 10.0 ft increase in reported river levels. This has also resulted in a 10.0 ft increase in flood stage levels.

Forecasts for the Wild Rice River (ND) near Abercrombie are issued as needed during times of high water, but are not routinely available.
