Observations courtesy of [US Geological Survey](http://www.usgs.gov/).

NOTE: River forecasts for this location take into account past and future precipitation. The stages/flows that will occur may be different if future rainfall is different than forecast.

NOTE: Gage observations from this river gage have been temporarily discontinued due to a system maintenance and replacement project. River forecasts will continue but will not have the benefit of using the actual river flows.

Forecasts for the Cowlitz River near Kosmos are issued routinely year-round.
