

National Weather Service
Advanced Hydrologic Prediction Service
water.weather.gov/ahps/

NOTE: Water levels are referenced to the Mean Higher High Water (MHHW) Datum. This datum can be used to approximate sea water inundation of normally dry ground near the coast. For specific impacts, please refer to the statements on this page.

Graphical forecasts are not available for the Gulf of Mexico Tide Gauge at Fort Myers (in MHHW). **During times of high water, forecast crest information can be found in the [text products](#).**
