Observations courtesy of [US Geological Survey](https://www.usgs.gov/) .

NOTE: Water levels are referenced to the Mean Higher High Water (MHHW) Datum. This datum can be used to approximate sea water inundation of normally dry ground near the coast. For specific impacts, please refer to the statements on this page.

Forecasts are not available for the St. Johns River at Shands Bridge (in MHHW). Only observed stages are available for this point.
