Observations courtesy of [National Ocean Service](https://www.noaa.gov/).

NOTE: Water levels are referenced to the Mean Higher High Water (MHHW) Datum. This datum can be used to approximate sea water inundation of normally dry ground near the coast. For specific impacts, please refer to the statements on this page.

Forecasts are not available for the Gulf of Mexico Tide Gauge at Key West Tide Station (in MHHW). Only observed stages are available for this point.
